

TIM Blockchain

Date: 2 July 2018

Rohit Chandan is no longer associated with TIM. Please beware of the misleading and frivolous statements he is posting on social media to malign us. Fact is that we parted ways with him due to his unprofessional behaviour and conduct.

Due to his public and private misconduct during his tenure, we lost many key influencers as well as listings including ICObench.

We cancelled his allocation as he breached his advisor agreement as well as our terms and condition.

On one hand, he is trying to defame us and on the other hand he is sending us emails pleading to allocate him tokens. Matters with him are being handled by our legal team. BEWARE!!!!
